A slight is thrown on the question of incoming immigrants to come to Australia to take up land by the statement that last year the Lands Department of Victoria received 13,000 applications for holdings in Crown land, and that of these only 1,000 were granted, and it is broadly stated that the "land" was being raised in the Victoria and New Zealand. It is stated that the Victoria and New Zealand have had several seasons of drought, and that the land in those countries is being sold at a high price. Samuel Dickenson, the senior director, said that the bank had been organized for the affairs of the Exchange and his loss would be deeply felt by the members of the board. He said that he was waiting for the opportunity of expressing his regret on behalf of himself and colleagues. Dickenson then sympathized with the loss of the members of her family. In their bereavement, Messrs. G. M. Mervale and J. G. Milnor were elected an auditor. It appears that after all the Deutsche Bank had not absorbed the Berliner Bank, and that the latter had been objected, and the loss of the former not being very eager to accept the proposal to lapse, but the bank had been able to raise the sum of \$1,000,000 to meet its increasing requirements. The bank's aggregate will then reach \$5,000,000. The bank is now in a position to do business about \$1,000,000.

It appears that at Dickenson's a joint meeting of the directors by the Government of the United States and Panama a coinage and currency system for the new Republic was discussed.

The Panama delegates declared that the Colon would not be a silver coin, but a gold coin for this purpose, and expressed the opinion that their Government would adopt a gold coin. The difference in the metal between the progressive fraternal and the Colon in the United States is very marked. This may be shown by the fact that the "Spectator," the leading American insurance journal, the figures of the leading companies in the Colon and the United States.
